

# Piano Literature 2 Developing Artist Original Keyboard Classics

## Piano Literature 2: Expanding the Repertoire of the Developing Artist with Original Keyboard Classics

For aspiring pianists, navigating the vast world of piano literature can feel like beginning a demanding journey. While the established works of Bach, Beethoven, and Chopin offer a solid foundation, a developing artist also needs exposure to a broader array of compositions to foster their individual style and enrich their musical comprehension. This is where “Piano Literature 2: Original Keyboard Classics for the Developing Artist” steps in, serving as a collection of lesser-known but equally significant pieces designed to provoke and motivate the maturing musician.

This essay will examine the unique qualities of this conceptualized collection, highlighting its educational value and applicable applications in the classroom. We'll discuss how this carefully curated compilation of original works can aid in the holistic maturation of a pianist's technical skills and expressive sensibilities.

### **A Curriculum Beyond the Canon:**

The core of “Piano Literature 2” is found in its dedication to presenting original compositions particularly written for the advanced-beginner pianist. These aren't plain arrangements of common pieces; they are newly composed works, carefully crafted to address particular musical challenges encountered by pianists at this level of their development.

The collection might include pieces that highlight specific musical aspects like scales, arpeggios, trills, and sundry rhythmic motifs. Unlike conventional method books, however, these studies are woven into engaging and evocative musical frameworks. This method aids learners develop their artistic abilities in a purposeful way, eschewing the frequently monotonous nature of isolated scales studies.

### **Expanding Musical Horizons:**

Beyond technical proficiency, “Piano Literature 2” seeks to broaden the developing artist's appreciation of expressive possibilities. The collection could feature pieces reminiscent of diverse periods and forms, familiarizing students to a broader variety of musical idioms. This exposure is essential for fostering a adaptable and comprehensive musical character.

For example, the collection might feature a piece reminiscent of Baroque counterpoint, another reflecting the emotional language of the 19th century, and a third experimenting with avant-garde harmonic approaches. Such variety ensures that students encounter a broad spectrum of compositional approaches, cultivating a profound understanding of musical history and aesthetics.

### **Practical Implementation and Benefits:**

Instructors can integrate “Piano Literature 2” into their teaching plan in numerous ways. It can serve as supplementary material to enhance standard technique manuals. Individual pieces can be chosen to address particular technical needs of students. The collection could also form the basis for performances, providing students with opportunities to display their advancement and musical maturity.

The benefits of using “Piano Literature 2” are significant . It improves musical skill , widens musical understanding, and develops a more profound love of music. Beyond these concrete benefits, it fosters creativity, promotes self-expression, and builds confidence.

## **Conclusion:**

“Piano Literature 2: Original Keyboard Classics for the Developing Artist” signifies a significant addition to the resources available to instructors and students alike. By offering a carefully curated collection of original works, it addresses the requirement for a broader and more engaging selection for the intermediate pianist. Through its concentration on musical understanding , it helps shape capable musicians ready to engage with the vast extent of piano literature.
